

 After the COVID-19 test, my result might be positive. If it is, my parent/carer

 will take me home and I must stay at home for 10 days.

 I will be given another test to take at home. My parent/carer

 can help me with this.

 I will have to stay inside the house for 10 days. I might feel unwell,

 if I feel unwell I'll need to rest and get better.

 If I feel good, I can do some learning from home. I might have

 worksheets or do some work on the computer.

 After 10 days, if I am feeling good, I will be allowed to go out and

 to go back to school.
