

West Lea School Lateral Flow Testing

When it is your turn, you will have a swab test, this will involve taking a sample from the back of your nose, and the back of your throat

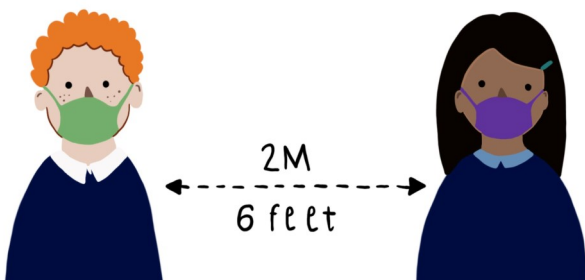

This might be a little uncomfortable, but the feeling will pass very quickly!

Wash your hands for 20 seconds before having your test

Keep your face mask on until you are asked to take it off

Stay at least 2 meters apart

When you have done your test, go straight back to class

WELL DONE!

I've just had my test!

WELL DONE!

I've just had my test!
