

Does **your child** have asthma?

Your child will need:

an asthma management plan

the correct inhaler technique

an annual asthma review

What **you** can do:

- 1** Ask your GP or school nurse for an asthma management plan
- 2** Ask your pharmacist, GP or nurse how to use their inhaler correctly
- 3** Ask your GP, asthma nurse or consultant for an annual asthma review for your child

These **three important steps** can prevent an emergency admission to hospital and even save a life.
