The London Schools Linking Project

ONLINE SPACES FOR FUN, CONNECTION AND POSITIVE INTERACTION

Autumn & Spring 2021/22

This project is for primary and special schools in Tower Hamlets and North London, to link and learn together. Participating schools will be supported every step of the way to engage in a linking programme designed to emphasis reaching out, making new friends and connecting with others beyond our usual groups.

This fully resourced, flexible and user-friendly programme of lessons and exchanges, includes online training for the link teachers who together, support their pupils to explore the questions: Who am I? Who are we? Where do we live? How do we all live together? Pupils are given the chance to explore identity, understand diversity, champion equality and celebrate community with depth and sensitivity in a well-structured curriculum-rich link.

Participation includes:

- Partnership with a school in a different locality in London
- Two training sessions (November 2021 and March 2022)
- Tried and tested resources – everything provided to simply run with it!
- On-going support by email and/ or telephone

Benefits of taking part:

- Impact, reflection and evaluation activities built-in, not bolted on
- Engaging, thoughtful programme
- Manageable for teachers, impactful and enjoyable for all children
- Helps develop empathy, critical thinking, trust, self-esteem, achievement and recovery
- Deepens knowledge and understanding of different beliefs by creating a safe space for young people to engage directly with peers from different backgrounds and reflect on how to become more open-minded, respectful and self-aware.
- Gives pupils a purpose and audience for reading and writing

To register or find out more please contact Anne Roots: annerootsconnect@gmail.com by Friday, 22nd October 2021. You can learn more about our project [here](#)
