

Young Gamers and Gamblers Education Trust

We are an award-winning registered charity with a social purpose to inform, educate and safeguard young people against gaming and gambling harms. Through our selection of programmes, we provide fully-funded workshops and resources for teachers, youth workers, early help practitioners, parents, universities, faith leaders and health professionals. Training for customer-facing employees in the gambling industry is also available (chargeable).

The Young Person's Gambling Harm Prevention Programme aims to deliver education, training and support to professionals and young people across England, Wales and Northern Ireland on gaming and gambling related harm through fully-funded City & Guilds assured CPD, that is evidence led and independently evaluated. Our workshops are targeted at professionals who work directly with children and young people, such as **teachers** and **youth workers**. On completion of our full workshop delegates have complimentary access to over 1000 downloadable resources that are mapped to the PSHE curriculum, RSE Programme of Study, Welsh PSE curriculum, and Northern Ireland LLW with lesson plans from KS2-KS5/16+.

Education | Training | Support

YGAM Parents, also part of the Young Person's Gambling Harm Prevention Programme, aims to provide information, training and support to **parents, carers and professionals** working with young people and families on the topics of gaming and gambling harm. Our parent workshop provides an overview of gaming and gambling, how to spot the signs of harm and useful tips and tools to enable parents to start conversations and create a healthy gaming balance. Our City & Guilds assured workshops are designed for professionals who work with children in care or within an early -help setting such as **social workers, family support teams and foster carers**. Our dedicated Parent Hub provides additional information and support on gaming and gambling.

The Mindful Resilience Programme is a fully-funded pilot initiative in London and the Home Counties enabling **health care professionals** to access Royal Society for Public Health assured CPD training on gambling and gaming-related harm prevention in children and young people. Designed by psychologists and those with lived experience, this live interactive workshop-based training builds understanding, skills and capabilities to address gambling and gaming-related harms; whilst reducing stigmatising attitudes which may act as barriers to seeking help and support, through earlier identification and referral to treatment providers. On completion of the workshop, delegates gain access to a comprehensive resource pack including assessment tools, details of organisations for support and referral/signposting, and references for further reading.

and those in training

Young Gamers and Gamblers Education Trust

The Preventing Gambling Harms in Diverse Communities Programme is a fully-funded and City & Guilds assured pilot initiative in London and the Home Counties, providing training for faith and community leaders focussing on tackling stigma and discussing the impact of gambling in diverse communities. The training will equip faith and community leaders with the knowledge, and tools to understand the triggers and risk factors of gambling and gaming to young people within diverse communities. It also provides attendees with relevant information and advice services available to those at harm.

Preventing Gambling Harms in Diverse Communities

The University and Student Engagement Programme provides training for professionals who work with FE and HE Students. The City & Guilds assured training explores the potential risks of gaming and gambling for students and equips professionals with the knowledge and tools to identify, support and signpost students who may be experiencing gaming or gambling related harms. The comprehensive training will include gaming, gambling and the blurred lines, why university students might be a particularly vulnerable group, the rise of Esports, sports betting and the role of technology, cryptocurrency and other high-risk investments.

For further details about any of these workshops, including information on how to book onto a session, please get in touch at training@ygam.org
