

STEM WITH WINGS

MEET NASA ENGINEER ASHITEY TREBI-OLLENNU

HE LIVES ON EARTH,
HE WORKS ON MARS!

Join us online
Thursday 2 May, 2pm

NASA engineer Ashitey Trebi-Ollennu lives on Earth - but he works 33 million miles away on Mars.

This special event from STEM with Wings is an opportunity for your class to find out about the amazing zero-gravity Mars helicopter and the Mars Rover Robotic Arm.

As well as hearing Ashitey's inspiring story from Ghana to the UK to NASA, classes will take part in his engineering design challenge inspired by nature.

Don't miss this amazing opportunity to spend an hour with one of the engineers behind NASA's incredible mission to the Red Planet. Book your free place on 2 May at 2-3pm (suitable for KS2).

Book your place on the Zoom directly:
